

Universal Ground Support Equipment (GSE) Adapter Set

- Contains a selection of adapters specifically for GSE, making it perfect for all maintenance, service and repair jobs for all types of GSE.
- Very suitable for low clearance vehicles and equipment, e.g. aircraft tow tractors, pushback trucks, cargo loaders and airport apron buses.
- GSE Drive-on Ramps for lifting vehicles and equipment by the chassis or the wheels using Stertil-Koni mobile column lifts.
- Base Frame Extensions and Fork Extensions utilised together to lift airport apron buses.
